- Nurses (RN/LPN) and Nurse Practitioners
- Nursing Home Administrators
- Occupational Therapists and COTAs
- Physical Therapists and PTAs
- Retirement Community Professionals
- Senior Housing Professionals
- Social Workers
- Others professionals working with older adults

What You Will Learn

Upon completion of this intensive, you should be able to:

- Utilize observation guidelines that will enhance the effectiveness and efficiency of screening and assessment skills
- Identify components of basic comprehensive functional geriatric screening and assessment
- Discuss common problems of the older adult and the associated issues for meaningful screening and assessment
- Determine how you can efficiently screen and assess older persons in various settings
- Identify and select tools and measures appropriate for your screening and assessment objectives and environments
- Collect, analyze and interpret screening and assessment data and relevant information
- Select action plans consistent with screening and assessment results
